Examples of unacceptable skirting would include unpainted foam board and duct tape holding up the skirting. Skirting is allowed from Oct 1 - May 1 and adjustment can be made by management depending on weather.

You can specify which type of site you'd prefer on your application (I.E. Blue River or Swan RV site or Deluxe or Executive Chalet). The long term agent will do the best to accommodate a request for a specific site but given that Tiger Run is a homeowner's association and all sites and chalets are privately owned, a specific site cannot be guaranteed.

What if I need propane during my stay?

Tenant is solely responsible for arranging for pick up, delivery, and service of propane tank per the Tiger Run Governing Documents:

An un-enclosed auxiliary exterior propane tank, per lot, will be allowed from October 1st until May 1st (Winter Months) but must be removed within 15 days if the lot is vacated. No auxiliary exterior propane tanks larger than 125 gallons will be allowed. This rule does not apply to small tanks (20-30 gal) that are a part of barbeque grills, gas heaters and/or gas fireplaces as long as these tanks are enclosed within these items and are not freestanding tanks attached only by a hose.

How do I pay rent?

Tiger Run urges tenants to use all precautionary measures to avoid stains on concrete including oil pans under RVs/trailers and also jack stands under all jacks

How many cars can I park at the resort?

2 car parking maximum on any RV site, and some sites may only accommodate space for 1 vehicle. Parking in the street and on grass areas is strictly prohibited due to park operations and county ordinances. Unfortunately, the resort does not have space to accommodate overflow parking for our monthly guests.

Please note that 2 RVs or 5th wheel/travel trailers are prohibited on one RV site

If towing a cargo trailer, the trailer can park on the RV site provided that there is sufficient space and trailer is not sticking out in the street, on the grass area, or impeding traffic or neighbors in any way. There is trailer/RV parking storage on airport road in Breckenridge operated by the Town of Breckenridge. Below is the website for additional information:

What concerns are there and what am I responsible for during the harsh weather in the high country?

- In order to ensure your water line or sewer line do not freeze during the winter, it must be disconnected overnight and when absent from the RV for any extended period of time.
- Never turn off the breaker to the electrical panel as the electrical panel controls the heat tape on the water line.
- The GFI/20 amp outlets on the pedestals are ONLY for the water heating equipment and plugging any auxiliary heated hoses or heaters into this circuit will cause the circuit to trip and the water to freeze up.
- If tenant does not adhere to the following requests, they could be held responsible for repair or damages resulting from a freeze up.

PLEASE NOTE that we are on a well system and water use is strictly for indoor water usage per Colorado Water Restrictions. Washing RVs or cars is strictly prohibited per our water lease.

Is snow plowing or shoveling included in the lease?

RV sites will be plowed the day of arrival. Street and common areas are plowed when it snows. The berms resulting from street plowing will be removed, however it might not happen immediately due to the volume of snow plowing operations.
